28th August, 2013

Dear Veronica,

RE: Complaint to Architects Board of Western Australia – Mr David Hillam

We regret that your investigation (detailed in your 13th August, 2013 letter) has not assisted us in any way.

We still have an architect-designed building that leaks.

You find no conduct that has been 'unprofessional'.

Perhaps we are working from a different dictionary to your Board.

We suspect that a 'professional' would have been unrelenting in correcting his leaking building during our three year period of discomfort.

We suspect that a 'professional' would have not chosen to ignore our emailed requests.

I believe a 'professional' organization would be interested in following this matter through until the problem was resolved.

Is there any possibility of your Board's continuing interest?

Yours sincerely,
