

A message from The Heartland Institute

Unfortunately, our friends in Congress are busy this summer combating our work with the passage of the cap and trade bill in the House. We can still fight back. **The Heartland Institute** has published "Climate Change Reconsidered." In "Climate Change Reconsidered: The 2009 Report of the Nongovernmental International Panel on Climate Change (NIPCC)," coauthors Dr. S. Fred Singer and Dr. Craig Idso and 35 contributors and reviewers present an authoritative and detailed rebuttal of the findings of the United Nations' Intergovernmental Panel on Climate Change (IPCC), on which the Obama Administration and Democrats in Congress rely for their regulatory proposals.

Please contact us if you would like a copy of this book!

We are also asking for your help in getting the word out about the EPA Endangerment Finding for CO₂. The below link to our website has all of the details on it:

<http://www.heartland.org/suites/environment/endangerment.html>

Thank you so much for all that you do in the fight for freedom!

Yours,

Zonia
Legislative Specialist, The Heartland Institute
