

Mannkal Presentation – Saturday 29th November 2014
Evaluation Summary

Summary

Overall, the brief was delivered within requisite timeframes and well received by the participants. The format was interactive and was geared to highlight practical strategies to assist the scholars socially during their time abroad.

Recommendations

1. Future training would be significantly enhanced by delivering less content during the information brief (only 5 key points and appropriate enhancement strategies) over a 60min session.
2. This base level content training would be enhanced and complimented with the structured implementation of a social engagement activity (1-3 hrs activity).
