## REQUIREMENTS

These scholarships are open to all Western Australian undergraduate students. Above all, Mannkal values entrepreneurialism and enthusiasm for a free and open society. We consider students from across all faculties and departments. Course marks are one consideration, but this should not exclude students who have made contributions in other areas. Some of these internships benefit from formal study of economics and public policy, although a keen interest and awareness of the philosophical concepts behind these subjects is more important. We are looking for students who are interested in the future of Western Australia and Australia and who would gain from seeing how applying free market and libertarian ideas can improve the lives of all citizens.

## What our scholars say...

---

*"My scholarship to the CIS in Sydney was amazing. I learned skills that put me a cut above other graduates and made many valuable contacts that brought me opportunities to work overseas. Ten years on, my Mannkal scholarship is still paying dividends to my career..."*

Paul McCarthy, Mannkal's CEO

*"The UK internship was truly a trip of a lifetime. I have a strong passion for economics and I'm very grateful that I was given such a unique opportunity. True libertarianism is an area that is frequently neglected in both secondary and tertiary education..."*

Timothy Lefroy, Institute of Economic Affairs

*"In conclusion, what can I say about my experience in Hong Kong? It was an amazing experience that cannot be found in a textbook or watched in a documentary... I have learnt that one person can make a difference..."*

Helen Le, The Lion Rock Institute

*"It has been an amazing experience and it has challenged my views on many issues and has added a whole new dimension to my knowledge of economics and ideas of liberty..."*

Jiamin Lim, Atlas Network

*"The most valuable learning I will take from this experience is the way of thinking that drives think-tanks like the New Zealand Initiative. They believe that debate and discussion are signs of a healthy society and economy, they're not afraid to voice their opinion on any issues even if there is heavy opposition, and they approach everything they do with a critical mind..."*

Mark Hennessy, New Zealand Initiative

*"My experiences as an intern at AIMS have been both insightful and invaluable. It has given me a great opportunity to further my research skills and gain an in-depth insight into the Atlantic Canadian region, especially in regards to energy and resources..."*

Sunita Sebastian, Atlantic Institute of Market Studies

*"What makes Mannkal so special is that scholars are not chosen solely according to their academic prowess. Rather, Mannkal looks at the whole individual including their willingness to learn, their ability to interact in a team environment and their passion for free-market economics..."*

Genevieve Mitchell, Frontier Centre for Public Policy
